- till 6th Semester (CGPA : 8.58)

Gwalior

XII and X Class

Ramakrishna Vidya Mandir School

2018 - 2020

PCM

- XII - 79.4%
- X - 78.2%

Gwalior

PROJECTS

Hotstar Clone using HTML, CSS, and Bootstrap

- The website serves as a replica of the popular entertainment OTT platform Hotstar, with the main objective being to showcase my talents and expertise, leaving a lasting impact on visitors and motivating them to delve deeper into my work.

Portfolio Website

- Made using HTML, Cascading Style Sheets (CSS), and JavaScript, this portfolio website exemplifies a responsive design approach. Through a captivating fusion of user interaction, it elegantly showcases my achievements and my journey visually engagingly.

Water Dispensing Machine using Internet of Things

- This water dispenser allows you to dispense a predetermined amount of water using a keypad, and it also provides the option to automatically fill a bottle by placing it in front of an IR-Sensor.

Digital Temperature Sensor using Arduino

- In this Project we measure the Surrounding temperature, using a temperature sensor, and show this on an LCD digitally.

Performance Dashboard using Ms-Excel

- Here Dashboard offers a concise overview of performance, enabling users to track progress, identify trends, and make informed decisions through real-time or near-real-time data displayed using charts, graphs, tables, and other visual elements.

SKILLS

C++
